# ACTIVE BRAKING SAFETY FOR LIGHT COMMERCIAL VEHICLES

## Our commitment

Hella Pagid is one of the leading providers of brakes on the independent aftermarket, offering an extensive product range.

Our parent company TMD Friction's experience in the development of original equipment brake pads dates right back to 1878, guaranteeing you the highest degree of quality, safety and comfort. This applies not only to PAGID's OE brake pads and linings but also to those from HELLA PAGID on the independent aftermarket.

Hella Pagid offers more than 14,000 products for almost all brands and models that are found on the market - including more than 3,500 spare parts specifically designed for light commercial vehicles.

When developing brake pads and linings for light commercial vehicles, Hella Pagid attaches particular importance to an extremely high load-carrying capacity and, at the same time, to a long service life for its products. This is because such vehicles have a high total weight and achieve maximum speeds of up to ca. 170 km/h.

## High carbon brake discs

The vast majority of Hella Pagid brake discs for light commercial vehicles is made of high carbon grey cast iron and, as such, has a significantly higher carbon content than normal grey cast iron brake discs. This high carbon content enables optimum braking performance even in extreme situations thanks to its rapid heat dissipation. This is the reason why high carbon brake discs from Hella Pagid can withstand the toughest loads.

## Brake pads

In order to be able to meet the enormously demanding requirements with regard to weight and maximum speed, special brake pads are required which have a high coefficient of friction yet at the same time are low wearing. A Hella Pagid brake pad undergoes up to 300,000 test kilometres and 1,000 hours of bench tests during its development. This creates a quality that exceeds legal requirements and which you can fully trust.

In this brochure you will find a small excerpt from our extensive range for the following product groups - specially tailored for light commercial vehicles:

- Disc brake pads
- Brake discs
- Brake callipers

# FIND THE RIGHT PRODUCT WITH EASE

Find out more about our products: by using our “BrakeGuide” online spare parts catalogue and our mobile app, you can access our full range at any time on your PC, smartphone or tablet where you will easily find just the right product for your vehicle.

## Online spare parts catalogue

The BrakeGuide is based on TecDoc data, which is updated weekly, and offers workshops intuitive and targeted help to easily find and correctly identify the right brake parts from the Hella Pagid product range. In addition to this, customers can also create their own personalised catalogues themselves in the typical Hella Pagid brochure layout.

[www.brakeguide.com](http://www.brakeguide.com)

## Mobile App BrakeGuide

The catalogue app from Hella Pagid Brake Systems makes it easier to identify the right spare parts and it also simplifies processes in workshops and in the wholesale business. Available for iOS and Android!

# OE EXPERTISE

Numerous vehicle manufacturers have relied on the original equipment expertise of PAGID for decades and have always consciously opted for this company's first-class brake components. This unparalleled original equipment expertise of the PAGID brand is incorporated into every Hella Pagid brake pad and reflects the special strength of Hella Pagid to be found on the independent aftermarket.
